**Registration with the Health Professions Council of South Africa (HSPCA) is a pre-requisite for professional practice, and it is also a legal requirement to keep all personal details up to date at all times.**

Do not simply trust that the person providing your medical care is a qualified health care professional based on their Web page, the title on their door or the pieces of paper displayed on their office walls.

**You can and should check their credentials on the HPCSA i-register at:**

Some, but not all medical practitioners also register with the Board of Healthcare Funders (BHF) and some medical schemes insist on this registration to pay your claims for services rendered by these practitioners.

**You can verify their registration with BHF by typing in their practice number at:**
